as Marassa:

The job at Richmond College has been finally offered to you. You will receive this in the mail. Congratulations. I hope you will enjoy working there and I look forward to having you as a ~~colleague~~ fellow worker.

I am not sure which courses you will be teaching, except that there are five for the year. One in the fall will have a general degree title so that you can teach whatever you want. Another will probably be "Social Change and Social Movements", which would deal with left wing and right wing movements in the US and elsewhere and how societies change (feudalism → capitalism, etc). I am not sure beyond that point, but I will write when I hear.

I suggest that you write to me any questions you have -- the more specific the better. Also, if you want to meet sometime in the summer, I would come here although you are strongly wanted to come and see the few of us in France. But do write to me if you get a chance.

Alan Wolfe
Les Hautes Mollines
Pelissous Creysse-24
FRANCE.

See you soon, I hope.
