One other matter: Gisela Eder wanted to see our nurses' document which is almost completed but still in draft. She also I sent it.

She also wants to publish Sheila Rowbotham's book. Rowbotham is a woman who is not in a Trotskyist organization but very ~~off~~ sympathetic. I advised very strongly against it, & implied that we would not be so happy to publish with them if Rowbotham was one of their authors. I have looked at the book she is interested in & can't understand her wanting to publish it except if she wishes Frauenoffensive to be all things to all women.

Also, a number of women are interested in the record you have made. Send us prices. S.

also, you have not commented at all on the <sup>page</sup>  
the Latin American edition. I hope this is not  
because you completely disapprove. Do please  
tell me if you have read it. If you have not, fine.  
I know you are busy. But I really would not  
be happy if you were not in agreement & are not  
saying anything.
