Dear Sisters,

Hi! We're writing to tell you that the Wages for Housework campaign has come to San Francisco. We had our public kick-off when Beth came here the week-end of July 9. We set up 2 speaking engagements for her (enclosed leaflet), leafletted the area, sent out press releases, and through that arranged 4 radio, 2 television, and one newspaper interview for Beth. We've enclosed the article from the San Francisco Examiner, the city's second largest newspaper. The Chronicle, San Francisco's largest paper, announced her speaking engagements. So, of course, our phones have been ringing madly, and we now have lots of contacts to follow up. We're now going to arrange to speak to groups of women (we've already done a little of that) and set up more media interviews for Beth. We're also planning an open house for the late summer.

Please add us to the organization's mailing list.
